A woman with short brown hair, wearing a white long-sleeved shirt and a colorful patterned scarf, sits on a dark grey sofa. She is holding a book titled "Knitting" in her right hand. The room is dimly lit, with a professional video camera on a tripod to her right. The camera's LCD screen shows a video feed of her. In the background, there is a bookshelf and a chandelier. A black backdrop is visible on the left side of the frame.

A woman with short, curly brown hair is sitting on a black leather sofa in a dimly lit room. She is wearing a white long-sleeved shirt, a colorful patterned scarf, and a matching patterned shawl. She is holding a magazine titled "Katie Couric" in her right hand. To her left is a small wooden side table with a metal wire basket underneath containing books. In the background, there are shelves with books and a chandelier. To the right, a large professional video camera is mounted on a tripod, and its monitor displays a live feed of the woman. The overall atmosphere is that of a professional film or television production set.

Every time I watch one of your videos I'm convinced it's the best one yet.

I'm excited to learn how to do this. I've only done knitting with a few beads. I already have a couple of Big-Eye beading needles, the best invention since, er, probably beading. I even have some Bead Soup in my stash. Not sure about the Kreinik but I know where to get it . . . Keep up

I loved this episode - my knit nite group is doing a demo this month on the same thing! How exciting to be able to bring some knowledge and a project that everyone can do!

I just love your v-cast, and think it's really really well done and extremely informative 😊 Please keep up the great work, and I look forward to each of your episodes.
